

THE COMING TOWN.

We take it as admitted that the new railroad of 98 miles being built at the cost of \$3,000,000, will cause at least one large town to spring up along its route.

The writer knows the Greenbrier River from the forks down to the C. & O. R. R. and knows that Marlinton is the best site for a town on it.

It is said that the first railroad ever built in China secured its charter with great difficulty, and then only on the provision that it would not come within four miles of any town on its route.

This town is about midway between the terminal points. It can furnish the finest building sites in the world.

The Boers lost the first battle, which was fought last Friday at Glencoe. The Boer's artillery was entrenched on Glencoe Hill, which was gallantly stormed by the Irish Fusiliers.

A good story about President Kruger is told by the Cape Times. It is related that two brothers who had inherited a large farm could not divide it between themselves.

The above is a very common method of dividing lands in West Virginia. The Columbia won the third and final yacht race last Friday, and the cup stays in America.

The Webster Echo publishes the shame of Webster county when it says twelve divorce suits have been brought in that county since August court. Pocahontas, a more populous county, averages about one divorce suit a year.

Meeting of Musical Association Postponed. Please take notice the Pocahontas Musical Association is postponed two weeks, will meet at Arbovale November 9th at 7:30 an and continue over the 10th and 11th.

Forest Fires.

Thousands of Acres of Timber Land Has Been Burned Over.

During the past week forest fires of unprecedented size and extent have been raging in this and adjoining counties. This section has had indeed a baptism of fire.

The origin of most of the fires is involved in mystery. Those who have hunted with the old mountain rifle know how easy it is to start a fire in the woods.

Friday a fire started in sight of town. The men who put the fire out made the mistake of trying to beat it out instead of raking a path around it and setting a fire to meet the fire which had got beyond their control.

Every man who has lived on a mountain farm has had more or less experience fighting fire. It is hot, dusty, killing work. Burned by the fire, choked with smoke, tired with the labor, working 24 hours in the day, the victim no longer wonders that such a condition has been made emblematic of endless punishment.

Fighting fire is in order. Singing at Mt Zion Sunday was about a failure because the Professor did not show up.

W. H. Dilley returned from Covington Thursday, and says every thing is on a boom. Ralph Dilley is very sick, with little hope of his recovery.

Some of our people expect to attend his singing at Arbovale this week. Everybody's Favorite. G. W. Barnett, of Broadax, Va., says: I have used Ramon's Pills and can say for them that they are the best and the cheapest made.

There is a theory which has been somewhat discredited by our late experiences that great forest fires will make the weather "draw to rain."

It is said that when the rattlesnake finds itself in the path of a fire it turns and strikes itself. The game is of course driven out of the covers before the fire. Two deer were killed in Buckley mountain last week which were traveling before the fire.

Forest fires constitute a curse to the country. It is estimated that they do a damage in the United States annually of \$50,000,000, and probably no section suffers more than ours.

Lithium. The Scientific American for September 30 has an article from the Engineering and Mining Journal on this effect.

Lithium is classed as one of the rare elements, and is indeed rare in its metallic form, but its compounds are not rare in occurrence or in commerce.

Does This Refer to Kellison?

From the Fairmont Index of October 18.

Considerable attention was aroused here a few days ago among our people on learning that a young man, wanted in Greenbrier county for shooting and instantly killing a young domestic, near Lewisburg, on September 11, had been seen in this neighborhood.

GREEN BANK. Very dry and dusty. Mr and Mrs J. S. Smith, of Mill Point, were visiting in this vicinity last week.

Mr and Mrs Harper McLaughlin, of Bath County, passed through town last week. B. M. Yeager was in town Saturday.

The series of meeting at Arbovale continue to grow in interest. 28 have confessed and about 30 are at the altar, and more will follow.

Cavalry Horses.

A veteran cavalry horse partakes of the hopes and fears of battle just the same as his rider. As the column swings into line and waits, the horse grows nervous over the waiting. If the wait is spun out he will tremble and sweat and grow apprehensive.

The South of Today. In order to present to the world a full story of the South of today the Manufacturer's Record of Baltimore will shortly issue a special Supplement covering the industrial progress to date and the outlook to the future.

The Supplement will be sent to every subscriber to the Manufacturer's Record, and in addition to this the Southern Railway Co., appreciating its importance to the South, has purchased 10,000 copies, which will be mailed to leading business men, manufacturers and capitalists in North and West.

ARMY LIFE

of C. B. Warner.

of Bristol, Va., left its mark on him in what physicians called a "hopeless case" of heart disease. He tells how his life was spared.

"In '96 two physicians pronounced my case hopeless, and said I had heart disease in its worst form; that it was useless to doctor, nothing would cure me. In March, '97, I took Dr. Miles' Heart Cure and have not had a symptom of the disease since. It saved my life."
